

Tata Punch iCNG

The Punch iCNG combines the **best features of the Punch with the efficiency of CNG technology, without compromising on boot space** along with **offering first-in-segment features**, including a 10.25-inch infotainment system with wireless Android Auto and Apple CarPlay.

Additionally, comfort-tech features such as a wireless charger, rear AC vents, a fast C-type USB charger, and a grand console with an armrest further enhance the **adventurous spirit, premium appeal, and overall driving experience of the Tata Punch**

Key Highlights

Incredible Performance: Equipped with a Powerful 1.2L engine, Punch iCNG delivers best-in-class power of 73.5 PS and 103 NM torque. Its advanced CNG technology ensures smooth manoeuvrability in city traffic and effortless driving across diverse terrains

Iconic Safety: Built on a GNCAP 5-star rated platform, Punch iCNG ensures exceptional safety with standard features such as dual airbags, electronic stability control, 3-point ELR seatbelts, and seatbelt reminders. Additionally, it incorporates advanced CNG safety measures, including a micro switch, high-quality materials in the CNG kit to prevent leakage, thermal incident protection, leak detection technology, and a fire protection device for enhanced security.

Intelligent Technology: Punch iCNG features first-in-segment Twin Cylinder technology, a single advanced ECU, and direct CNG start for seamless performance. It automatically switches between fuels, offers faster refuelling, and includes a modular fuel filter, all while being environmentally friendly.

Impressive Features: Punch iCNG stands out with best-in-segment features, including a first-in-segment 10.25" touchscreen infotainment system, rear AC vents, an electric sunroof, projector headlamps, signature LED DRLs, R16 diamond-cut alloys, and wireless Android Auto™ and Apple Car Play™ connectivity. It also offers a 6-speaker surround sound system, automatic climate control, wireless charger, grand console with an armrest, steering-mounted controls, auto-fold ORVMs, and many more premium features.
