Technical Specifications:

Parameter	Description
Dimensions	
Body	
Length	3790mm
Width	1500mm
Height	Unladen/ Laden : 1890mm/ 1870mm
Wheelbase	2100 mm
Min Turning Circle Dia.	8.6m
Ground Clearance	160 mm
Battery and Motor Performance	
Max. Torque	90 - 115Nm
Max. Motor Output	26 - 31kW
Battery Capacity	14 - 20kWh
Range	100 - 140km
Weight & Performance	
Gross Vehicle Weight	2180kg
Payload/ Seating Capacity	825kg / 10+D (Hard top)
Transmission, Suspension & Steering	
Transmission	Single Speed
Suspension	Semi elliptical leaf spring at front and rear
Charging	
Charging Modes	Slow Charging : 6 – 6.5hr
	Fast Charging : 1.1 – 1.7hr
Charging port	GB/T
