## PRODUCT NOTE

### Tata Azura T.19

Biodiesel, with its lower carbon footprint and renewable nature, is a cleaner alternative to conventional fuels, aligning with the need for sustainable transportation solutions. Tata Motors proudly introduces the all-new Tata T.19 Azura Bio-Diesel, engineered to deliver exceptional performance, combining sustainability with advanced safety features. Powered by an all-new robust 3.6L engine compatible with B30 biodiesel, the T.19 Azura offers best-in-class fuel efficiency and a lower total cost of ownership. Designed for multiple applications, the vehicle features a stylish design with a next-generation cabin, ergonomic interiors, and a driver-centric dashboard. Equipped with ADAS, it ensures enhanced safety across a variety of operations. Built on a scalable and modular platform, it is adaptable for both truck and tipper configurations.

#### USPs:

- New gen 3.6L Bio-Diesel (B30) Engine with Best in class NVH
- Unmatched safety with 20 ADAS features – first in the country
- New-generation cabin features enhanced utility spaces, complemented by a next-gen TFT instrument cluster and a 7-inch touchscreen infotainment system
- Equipped with dual power mode, Gear Shift Advisor (GSA), Anti-fuel theft feature, Hill Start Assist (HSA), Driver monitoring system (DMS) and Tyre pressure monitoring system (TPMS)
- Twin beam Halogen headlamp with LED DRLs
- Tilt & Telescopic steering column
- Foldable twin accommodation co-driver seat and suspended seat, ELR seatbelts for Driver and Co-driver
- Vehicle equipped with Firmware over the air (FOTA) compatibility for seamless upgrades
- Best-in-class connectivity with Fleet Edge – 70 connected vehicle features and 10+ unique features

**Applications:** Cement, industrial goods, white goods, containers, FMCG, parcel & courier, agri products, LPG cylinders, auto logistics, market load operations and milk & dairy, among others.

#### Technical Specifications:

Parameter	Description
GVW (kg)	18500
Cabin	Azura Sleeper
Engine	3.6L New Gen Bio Diesel
Max Power and Torque	170HP and 600Nm
Clutch	330 dia , cushion ceramic
Gearbox	G550-MK2, 6 Speed, 7.27 FGR
Tyre	295/80 R22.5 Tubeless Tyre with option of Radial Tube Tyres
Suspension	Front: Parabolic; Rear: Semi elliptical springs
Fuel Tank	250L/350/400L with AFT (Anti Fuel Theft)
Brakes	Drum S Cam air brake (Noise free Liners)
Grade-ability	25%
Deck length options	17ft, 20ft, 22ft, 24ft and 32ft (option of Containerized box cabin/ high-side deck)
Payload (kg)	13100
