

PUNCH iCNG

The all-new PUNCH iCNG is derived from the PUNCH SUV, a product built on the futuristic and versatile 'Agile Light Flexible Advanced' (ALFA) Architecture that brings to life Tata Motors' radical new approach to design. It is set to re-invent the CNG segment with first in Industry all new twin cylinder technology where the tanks are placed above the rear floor and below the luggage carpet so that there is no compromise on the boot space.

The PUNCH iCNG is a go anywhere SUV, which is configured to meet the constantly evolving requirements of the smart customer, who is tech savvy and demands best in class features along with an environment friendly and economical product. PUNCH will be the first SUV in the industry to have the CNG powertrain as a factory fitted option.

Building on the successful 5 star Global NCAP rated platform, the PUNCH iCNG is a dynamic vehicle that gives consumer the additional benefit of usable boot space, something which is not available in existing CNG products. In addition to this, the vehicle will also get voice activated electric sunroof and enhanced safety with 6 air bags along with existing impressive features of the PUNCH ICE

Key highlights:

Incredible Performance

PUNCH iCNG will come in a powerful 1.2L engine with the Dyna-pro technology, under the hood. This advanced iCNG technology gives unmatched performance with a perfect combination of power and pick-up. Features leading to this incredible performance are:

- Superior power of 77 PS
- Torque of 97 (Nm)
- Easy City Manoeuvrability
- Effortless Drive in all Terrains

Iconic Safety

PUNCH has been built on the 5 Star GNCAP rated platform. Use of high strength steel and reinforced body structure gives rigidity to the car making it strong. The PUNCH offers vehicle safety features such as ABS with EBD and Corner Stability Control as standard. The important safety features offered in the PUNCH iCNG are:

- 6 Airbags
- Micro Switch to keep car switched off at time of refuelling
- Use of Advance Materials in CNG kit to prevent leakage
- Thermal Incident Protection
- Leak Detection Feature
- Fire Protection Device

Intelligent Technology

iCNG technology works effortlessly to ensure a seamless driving experience. From ensuring high performance to lowering maintenance cost, the smart technology is a delight at every turn. Highlights of the iCNG technology are:

- First in segment Twin Cylinder iCNG tanks
- First in segment Single Advanced ECU
- First in segment Direct Start in CNG
- Auto switch between fuels

for immediate use

PRODUCT NOTE

- Faster Re-fuelling
- Modular Fuel Filter
- Environment Friendly

Impressive Features

PUNCH iCNG comes with best in class features which makes it stand out from the competitor. Top features of Punch iCNG are:

- Voice activated Electric Sunroof
- Projector Headlamps
- Signature LED DRLs
- R16 Diamond Cut Alloys
- 7" TFT Instrument Cluster
- 7" Touchscreen Infotainment by Harman™
- Android Auto™ and Apple Carplay™ Connectivity
- 6 Speaker Surround System
- Automatic Climate Control
- Steering Mounted Controls
- Auto fold ORVM and many more

Technical Specifications:

Parameter	Description
DIMENSIONS, WEIGHT AND CAPACITY	
Overall Length (mm)	3827
Max. Width (mm)	1742
Overall Height (mm)	1615
Wheel Base (mm)	2445
ENGINE	
Engine Type	1.2L Revotron Engine
PERFORMANCE	
Max Power PS @ rpm	77 PS @ 6000 rpm
Max Torque Nm@ rpm	97 Nm
FUEL TANK CAPACITY	
Petrol	37 Lt
CNG	60ltr (Water Capacity)
